🎓 IB Teacher | University of Oxford | MSc in Biology

I hold an MSc in Biology from the University of Oxford and a BSc in Cellular Biology from King's College London. With 7 years of experience, I've guided students through IB Biology, A-Level, and IGCSE curricula, helping them achieve top results and develop a solid understanding of complex biological concepts.

Teaches: IB Biology A-Level Biology IGCSE Biology GCSE Biology

Curriculum: IB A-Level GCSE IGCSE

## Qualifications

**University of Oxford:** MSc in Biology (2014–2016)

**King's College London:** BSc in Cellular Biology (2010–2013)

## Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

## Tutoring Experience

Over the past 7 years, I've helped students excel in their IB Biology, A-Level, and IGCSE exams. Many of my students have achieved excellent grades and gone on to study life sciences at prestigious universities. I've taught students from a variety of backgrounds, always focusing on building a strong foundation in biological principles.

In my experience, I've worked closely with students preparing for their exams, ensuring they understand challenging topics such as genetics, cellular biology, and evolution. My approach is to provide tailored support to each student, helping them grasp difficult concepts and improve their analytical skills in biology.

Many of my students have shown significant progress after just a few sessions, with noticeable improvements in both their confidence and exam performance. My commitment to student success has been reflected in their consistently high achievements, allowing them to pursue further studies in the biological sciences.
